

Lotus 7

VITAL CHAKRA ENERGY, REPRESENTED IN JEWELRY

The human being is not just a physical body but also energy or an energy body, like everything that surrounds us.

The concept of energy centers or chakras originates from Yoga, which is a discipline closely related to Hinduism.

The crown chakra 'energy center located in the upper part of the head, is also called ((the thousand-petalled lotus, infact for Hindu religion, the seven main energy centers of the body (chakra) are represented by the flowers of lotus.

For this reasons LOTUS 7 capsule uses the shape of the lotus petal, the flower that represents chakras.

The design of the LOTUS 7 line was created to be the most possible in contact with the skin, in order to create a synergy with the wearer, benefiting from the energy properties of semi-precious stones.

Furthermore, the movement of the stone spheres inside the petal is a powerful anti-stress, an opportunity for play and well-being.

Thet

This collection has as characteristic the nine-pointed star, the 9 is a sacred Number since it is composed of three times the number Three. The ninth letter of the Hebrew alphabet is THET meaning “hidden light”.

The 9 is the last number of the essential figures representing the evolutionary path of man.

No number can go beyond the nine, to indicate the impassable limit to which every individual submits in

the world of matter. It is therefore the symbol of realization.

It indicates the period of gestation, 9 months for the birth of a new life. The meaning of the number 9,

therefore, is to be traced back to the words “generation” and “reincarnation”.

This archetype represents the feminine, the bride, the earth represents the generation, the knowledge and

the communication of the inner verb, the illumination, the personal journey.

For the Cabala represents the awareness of the good, the fruit of the transformation of suffering into

knowledge. The awareness that becomes the alliance with the Supreme.

A form similar to the Thet is the lotus flower, one of the most venerable and ancient symbols.

The lotus flower grows in muddy water and emerges on the surface in all its splendour.

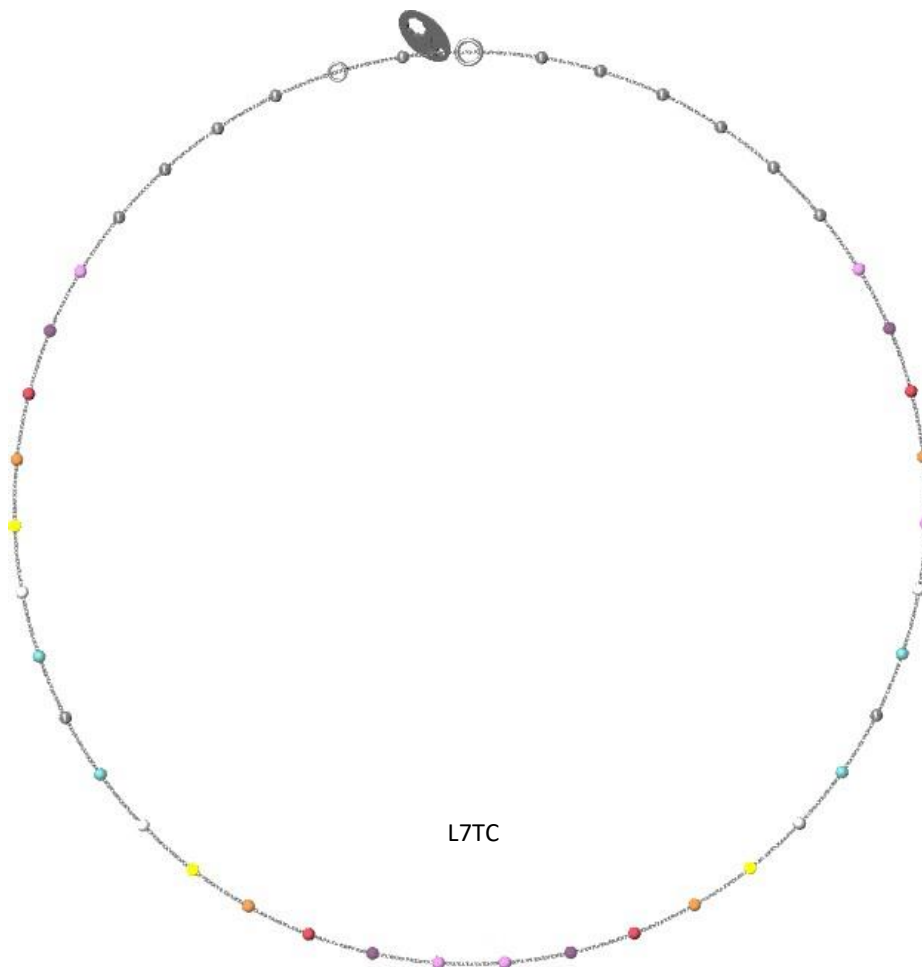

Untouchable by the impure even when at night it comes back in the mud, it symbolizes the purity of heart and mind, perfection..
